Permit Conditions

In consideration of the issuance of the permit the permit holder agrees:

1. To advise the fire department in advance of any blocking of through traffic by such excavation and the termination of such blocking.
2. To provide such barricades and flares as are necessary to protect the public.
3. To properly backfill the above excavation immediately upon completion of the work below grade, and to repair the paving within 3 days of date of permit in accordance with printed specifications, details and requirements of the city engineer of the City of San Juan, which I have read, in accordance with the provisions of Ordinance No. 86-007, City of San Juan.
4. To hold the City of San Juan harmless against any and all liability, loss, cost, damage or expense which may accrue to the city because of the negligence or misconduct in the performance, or lack of performance, of any work by the permit holder.
5. The permit holder shall guarantee the above street repair work and to immediately repair same should the work become unsatisfactory in accordance with Section 5.00 Ordinance No. 86-007, City of San Juan.
