

4. Revised Bacan Davis Wage Requirements issued for Hidalgo County have been provided issued via decision TX20260003 on 01/02/2026. The new Davis Bacon Wage Requirements are provided as part of this Addendum.

SPECIFICATIONS

All technical specifications will be as follows in all divisions:

1. There will not be any exclusions due to availability of factory representatives or local affiliates due to proximity or location of manufacturers office or local representative office to the project. Local representatives are encouraged, however not required for this project.
2. Substitutions of any equipment or supplies will not be allowed unless previously approved or approved by Engineer. Substitutions will need to be approved seven (7) days PRIOR to bid submittal and MUST be submitted with Bid Proposal in writing. Failure to do so will result in non-responsive and rejection of bid.

a. Substitution Approvals will require the following for consideration:

for each equipment

i. A minimum of ten (10) References with the proposed products/equipment, with telephone number, email, and Owner of the Project and Contact.

ii. Manufacturer's catalog/data sheets and descriptive literature for each piece of equipment supplied.

iii. Technical data on each major piece of equipment including weights of all items greater than 200 Lbs.

iv. Detailed bill of material complete with material of construction.

please provide

v. Dimensional drawings showing elevation and plan views of the proposed equipment signed and sealed by Engineer approved in Texas.

vi. Process and Instrumentation Diagram (P&ID) showing all main equipment components, flow rates and instrumentation.

vii. Process control narrative.

viii. Equipment offloading and installation instructions with sufficient detail to allow the Contractor to complete the mechanical and electrical installation of all System components.

ix. Statement of Manufacturer's Warranty.

please provide

x. System startup and restart instructions.

xi. Special maintenance procedures, including recommended weekly, monthly and annual preventative maintenance requirements.

xii. Troubleshooting guide.

xiii. Individual Operation and Maintenance instructions for all major system
